The White Estate team has released a series of new eBook websites to make digital evangelism easier for our users.

Each website contains only one book. Each book title is the domain name of the website. For example: <https://desireofages.pub> will take you directly to a clean, simple, easy to use website, where you can read and listen to *The Desire of Ages* online.

Each site has a button for purchasing sharing materials from our print-on-demand webstore (<https://ellenwhite.ourproshop.com>). We have multiple options available, such as bookmarks, business cards, posters, etcetera. All items feature a QR code and the book title's domain name.

This year we have released all 5 books from The Conflict of the Ages series covering the Biblical history of redemption from Genesis to Revelation:

The .pub websites utilize the <https://egwwritings.org> web engine so that additional Ellen White book titles can economically be released in this .pub format. Church ministries worldwide are using these convenient websites to promote witnessing and reading of Ellen White books.
